

Title of Project:

Mapping of the S&T Needs of the States / UTs

Name of Principal Investigator

Dr. Amit Dubey and Er. K.S. Rao

Name of Funding Agency

Department of Science and Technology, Government of India

Tenure of Project

Since 2019

Summary of Project:

Project has been for the analysis of Science and Technology strength and gap areas in the State. With reference to the State SDG Index report and Localizing SDGs: Early Lessons from India report. From the SDGs, appropriate goals for further mapping the S&T intervention needs are to be selected in accordance with the State priorities. Other than SDG, the Central Government and State Government developmental programmes are also being considered for selecting the priority areas. The mapping exercise is being carried out from State level to region or District level.
